

**Your Trusted Partner
in Global Commercial
Order Supply.**

Who We Are

Kenzo Global is an Istanbul-based company with over a decade of expertise in supplying high-quality products and services to the energy and electricity sectors. The company was established in 2023, and our primary aim is to meet clients' evolving needs by offering innovative technologies and solutions for a superior user experience. Additionally, we provide expert consultancy services, ensuring our customers' success through tailored solutions.

Kenzo Global operates across multiple sectors, including:

- . Industrial machinery and equipment
- . Laboratory and testing devices
- . Food nutrients
- . Chemical raw materials

We proudly collaborate with trusted manufacturers across the **U.S., Europe, and Asia**, offering consultancy services and securing exclusive representations to bring world-class solutions to our clients.

Our Mission

At Kenzo Global, we facilitate seamless international trade by offering efficient and cost-effective export solutions. We focus on building long-term relationships with our customers, supporting their success by providing the best products that meet global technical and engineering standards. With direct communication with manufacturers and suppliers, we ensure timely delivery of high-quality goods that serve the energy, industrial, and chemical sectors.

Our Fields of Activity

Industrial Equipment

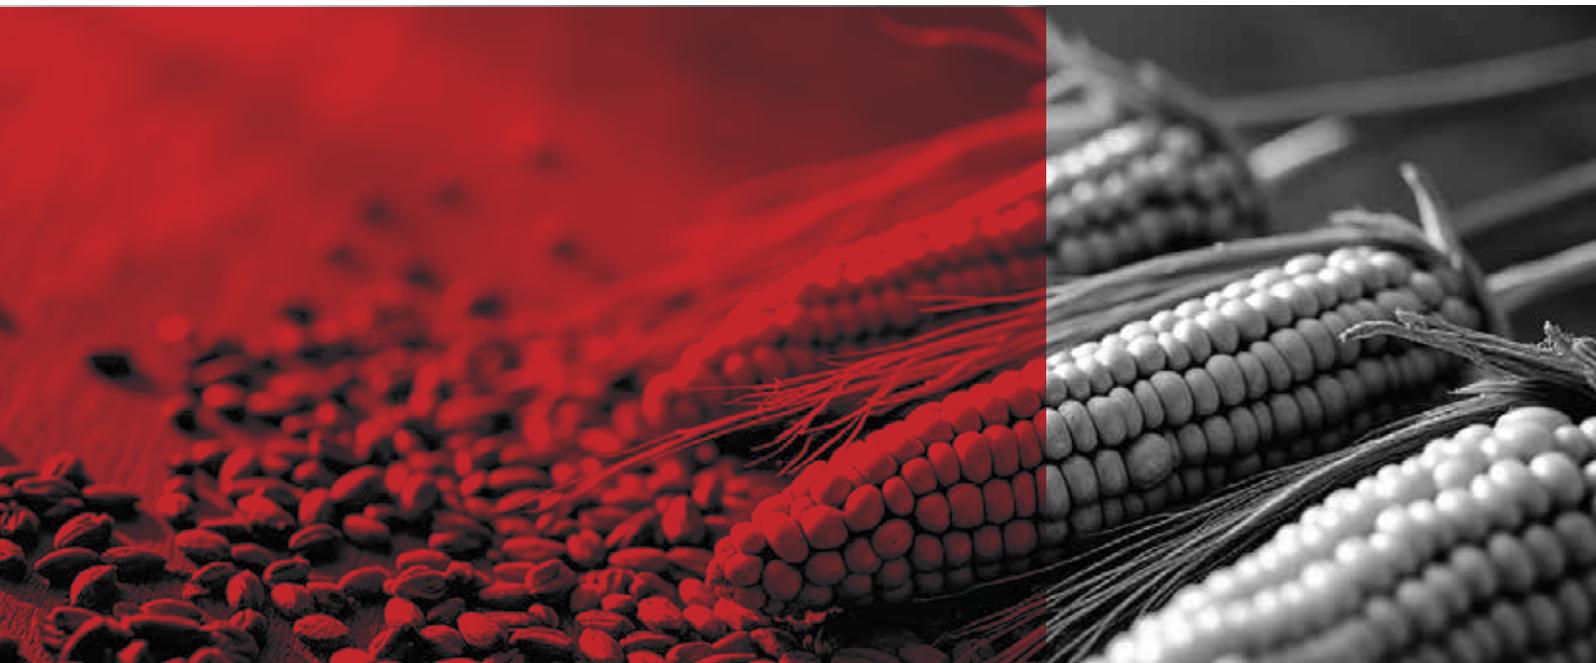

Kenzo Global supplies a wide range of industrial equipment designed to enhance manufacturing, processing, and other industrial activities. Our products are built for durability and reliability in harsh environments, with regular maintenance and lifecycle management to ensure optimal performance. Our portfolio includes **CNC Machines, Conveyors, Pumps, Compressors, Forklifts**, and a wide range of tools and machines used in manufacturing and processing industries.

Food Industry and Nutritional Additives

We offer a diverse range of products in the food industry, including cereal products like **Wheat, Oats, Rice, and Corn**. These grains are essential ingredients in products such as **Flour, Bread, Pasta, and Breakfast Cereals**. Our services cater to both wholesale and retail customers, ensuring top-quality products and solutions. Moreover, Kenzo Global collaborates with partners to provide **Sweeteners, Flavors, Functional Additives, and Nutritional Solutions**. We work closely with customers to develop innovative products that meet the growing demand for healthier and more sustainable food ingredients.

Laboratory Equipment

Kenzo supplies a variety of specialized laboratory equipment for fields like biology, chemistry, physics, engineering, and medicine. Our portfolio includes:

- . **Microscopes** for detailed examinations
- . **Centrifuges** for particle separation
- . **Spectrophotometers** for substance concentration analysis
- . **PCR Machines** for DNA testing
- . **Chromatography Systems** for substance analysis
- . These tools are essential for scientific research and quality control.
- . **Measuring Devices** like pH meters and Voltmeter.

Electrical & Electronic Test Equipment

We provide advanced electrical testing devices, including **Multimeters, Adjustable Power Supplies, Oscilloscopes, Frequency Counters, Megger, Voltmeters and Ammeters**, and **Insulation Resistance Testers**. These tools ensure the safety, performance, and compliance of electrical systems, helping professionals maintain high standards in electrical engineering.

Renewable Energy Solutions

Kenzo Global is committed to environmentally friendly energy solutions. We offer a wide range of renewable energy equipment, such as **Photovoltaic Systems, Solar Thermal Systems, Inverters, and Solar Charge Controllers**, contributing to the global transition towards clean energy.

Chemical & Raw Materials

Our company supplies a broad array of chemicals and raw materials for various industries, including **Chemicals for Pharmaceuticals, Food, Cosmetics, and Water Treatment**. Our products meet the highest international standards and are delivered promptly to ensure customer satisfaction. Key offerings include **Chlorine, Hydrochloric Acid, Sodium Hydroxide, Dimethylacetamide, (MMA), Trimethylamine, Hydrogen peroxide, Ammonium persulfate, and many more essential materials.**

Why Choose Kenzo Global?

- . **Expertise:** Over 10 years of experience in the energy and industrial sectors.
- . **Reliability:** Timely delivery and superior quality products that meet global standards.
- . **Customer Focus:** Tailored solutions with a commitment to customer satisfaction.
- . **Innovation:** Providing cutting-edge technology and solutions for a competitive edge.
